Subject: RE: US EPA Region 3 NPDES Construction Stormwater Final Inspection Report for MRP Capitol River Front

Confirmed receipt.

All items have been corrected. Currently we are in the process of demobilizing as the project is substantially complete.

Regards,

Sq

Subject: US EPA Region 3 NPDES Construction Stormwater Final Inspection Report for MRP Capitol River Front

Dear (b) (4),

Please find attached the U.S. Environmental Protection Agency's (EPA) inspection report outlining observations from the Clean Water Act evaluation of MRP Capitol River Front's construction stormwater program. The report includes information gathered during and after the on-site inspection that occurred May 3, 2016.

I encourage you to read the report carefully. If you believe any of the information is inaccurate or if you would like provide supplemental information regarding the observations in the report, you may provide a written response, within fifteen (15) business days, to be included in EPA's files. EPA inspection reports do not contain compliance determinations (i.e. whether or not a violation occurred). The observations outlined in the report will be reviewed by EPA to determine if any follow-up actions are necessary. This inspection report and any other information gathered by the EPA may be used in making a compliance determination with federal regulations.

If you have any questions, please feel free to contact me at 215-814-2396. Also, please note that I will be out of the office from 7/29/16 until 8/4/16 so any interim questions should be directed to Rebecca Crane at 215-814-2389.

Thank you,

Aryel Abramovitz
